## Technical Information Sheet

### Part No. 0-834-10

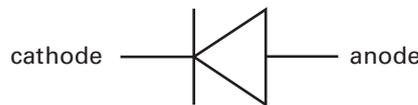

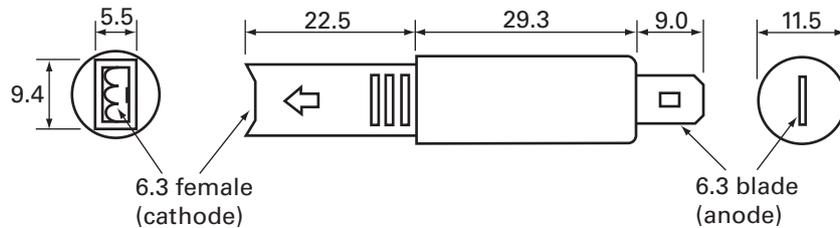

Universal in-line diode, 10 amp 50 volt dc, with male (-) and female (+) 6.30mm Lucar terminals.

#### Additional information

For current to flow the diode must be forward biased by connecting the anode to positive and cathode to negative.

#### Technical Drawing (not to scale)

#### Specification

Type	In-line silicon diode
Voltage	Max reverse voltage 50 volts Max forward voltage 0.9 volts
Current	Max forward current 10A Max leakage current <25µA
Termination	Anode 6.3mm blade terminal Cathode 6.3mm female push-on terminal
Operating junction temp	-50° to +175°C (at 25°C ambient temp)
Case	Nylon 6.6
Weight	5g
Dimensions	See diagram
